

REMARKS

Claims 1-4 and 6-21 are presented in this amendment. Claims 1 and 15 have been amended.

In the Notice of Allowance mailed September 3, 2009, the Examiner noted an Examiner's amendment to claim 6 to depend from claim 1 instead of canceled claim 5. The remaining claims were found to be allowable.

Claim Corrections

In reviewing the Examiner's amendment, which is acceptable to the applicants, applicants found two minor issues in claims 1 and 15 that require correction.

In claim 1, line 10, the recitation of "the write bus" lacked antecedent basis. Applicants have amended claim 1 to recite "a write bus" in line 10. In claim 15, line 5, the recitation of "the shift registers" lacked antecedent basis. The recitation of "and shift register" in the last line of claim 15 has a typographical error.

Applicants have amended claim 15 at line 5 to recite "a plurality of shift registers in the circuitry" to provide antecedent basis for later recitations of "the shift registers." Applicants have amended the last line to now read "and the shift registers."

No new matter has been entered by way of these amendments. In view of the fact that these amendments are merely corrections of minor typographical errors, applicants respectfully request that they be approved and entered in the application prior to issuance. In the event the Examiner has questions or disagrees with the foregoing, applicants respectfully request that the Examiner contact the undersigned by telephone at (206) 622-4900 in order to expeditiously resolve prosecution of these claims.

Respectfully submitted,

SEED Intellectual Property Law Group PLLC
